180 GRAM (GGR180™) 12 INCH RECORD PRICE CARD

GGR180™ 180 gram records are the best that audiophile grade records can be. Average weight is 180 grams, more frequent stamper change-outs occur during pressing, and pressed on our unique black vinyl blend or Natural (uncolored) vinyl.

GGR180™ goes beyond being just a heavier record – it is the standard that audiophile consumers should demand of all newly pressed records.

HOW TO ORDER: - Simply click "[Place An Order](#)" in the upper left corner of our website. The order form is called the "Record Builder", and as you enter your specs, it will provide pricing.

The Record Builder order form reads in the same sequential order as this PDF price card — add your items from each step to get your grand total excluding shipping costs.

STEP 1: This step pertains to only the records you are ordering (no print items, other than labels)

STEP 2: This step is where you add your print items, like jackets, innersleeves, download codes, inserts, etc.

STEP 3: This is where you find miscellaneous items, such as shrinkwrap, polybags, and other assembly items.

*Gotta Groove uses ExlfilmPlus GPS shrinkwrap, which is made in part with pre-consumer recycled content, and can be recycled in many locations in the USA and Canada via the How2Recycle network.	
However, we feel that polybags are still more environmentally friendly than shrinkwrap, because they are typically kept with the record for the life of the record, vs shrinkwrap which is typically trashed.

OTHER MISCELLANEOUS INFORMATION

Pricing on this document is subject to change at any time without prior notice.

Other than the per-unit prices listed above, the whole dollar prices are LOT. This means the quantity shipped is subject to 10% overrun or underrun, but you will be billed the listed price regardless of the exact qty shipped.

Shipping is not included in the pricing on this document. All orders are shipped F.O.B. Cleveland Ohio. Orders of 300 or more units are typically shipped on a pallet via a freight carrier. Orders under 300 units are typically shipped via UPS ground, triple boxed. A triple boxing fee of \$5 per master carton will be added to all non-palletized shipments. Triple boxing can be requested for palletized shipments as well, for the cost of \$5 per master carton.

Master carton qty's are based upon the final counts and specs of the order, and may vary. Most single pocket 180 gram record orders will be shipped in 50ct master cartons. Most 2LP sets will be shipped in 24ct or 26ct master cartons.

Shipping costs vary widely. Typically, you can save money shipping to a commercial location – particularly one with a trailer-height (not ground level) loading dock or forklift on premises when order qty is 300 or more units. Figure a minimum shipping cost of \$200 for order qtys of 100 single LP units, \$300-500 for order qtys of 300-500 single LP units, \$350-600 for orders of 1000 single LP units, and an average of \$0.35 per unit for 2000+ units. Please note – these are extremely rough estimates, and the final actual shipping costs may be more or less, depending upon final order weight, box count, and physical location of the delivery address. A minimum \$10 per location drop ship fee for split shipments will be added to the final invoice. International addresses will incur a \$25 processing fee.

All orders require a 50% deposit, completed order form, and signed agreement to the GGR Terms of Service before work will begin.

Please note, we do not press records with uncleared samples or unlicensed records – please do not place an order if your record includes these.
