7 INCH VINYL PRICING

Gotta Groove 7 inch records average weight is over 40 grams, depending upon factors such as the program material, vinyl color, labels, and other technical considerations. We will always run records at the optimal settings to achieve the best sound and aesthetic quality possible for each particular record.

HOW THIS PRICE CARD WORKS:

This document is arranged as three steps as you start at the top and work your way down:

STEP 1 consists of just the records (i.e., no printed packaging).

STEP 2 is where you add the costs of printed packaging, such as printed innersleeves, jackets, download codes, etc.

STEP 3 is where you add miscellaneous items, such as shrinkwrap, polybags, and other assembly add-ons.

(you can click on [red](#) text below for links to photos and more information)

STEP 1: RECORDS

INCLUDED ITEMS:

- Lacquers (deduct \$275 if you are supplying lacquers)
- Plating
- Test pressings (5 test pressings are included by default. You can order extras for \$2 per copy)
- BLACK AND WHITE label printing on the record
- Plain White Paper Innersleeves

For images of colors, [please click here](#). The images are named by their price classification below. Be sure to read [color information here](#).

*Important – not all mixed colors are available on 7inch, because the smaller size record prevents them from keeping colors separated. Black is generally the only color that can be swirled into another color on 7inch and maintain separation. Also, transparent colors tend to sound noisier than opaque colors on a 7inch record. Please contact us to discuss all mixed colors before ordering 7inch records.

STEP 3: MISCELLANEOUS ADD-ON ITEMS

Insertion of customer supplied items and/or into customer supplied jackets (assuming no folding required by GGR) = \$0.09ea

Shrinkwrap = \$0.35ea (for standard jacket formats – customized jackets, box sets, and unique sized packaging need quoted)

***At GGR, we use ExfilmPlus GPS Shrinkwrap, which is made at least in part with pre-consumer recycled content, and may be recyclable in many geographic areas in the USA and Canada via the How2Recycle network. We feel that polybags are more environmentally friendly than shrinkwrap, because they are typically kept with the record for the life of the record, vs shrinkwrap which is generally thrown away after purchase.**

Here are links for more information: [ExfilmPlus GPS Shrinkwrap](#) [How2Recycle](#)

Stuffed into no-flap polybags = \$0.35ea (or if you just want a box of polybags to stuff yourself, cost is \$0.15ea)

(all no-flap polybags are made from 100% recycled plastic)

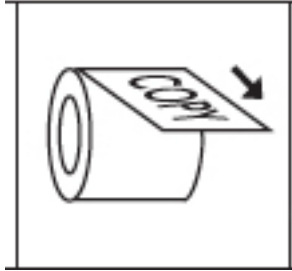

Apply machinable stickers to shrinkwrap = \$0.10ea

Apply machinable stickers to polybags = \$0.15ea

Bar code registration = \$39

Specifications for machinable stickers:

- On a roll with a core, No perforations on roll
 - Largest size is 4x3"
- Paper stock (not clear stock) or Foil stock
- Oriented left of copy on roll, as shown in the image below:

Apply larger stickers / clear stock stickers = \$0.15ea - \$0.25ea depending upon specifications.

STICKER PRINTING:

Pricing for printing marketing stickers is based upon size, shape, and # of colors. Typically start at \$150 and up. GGR only prints stickers on a roll – we do not make individually cut stickers.

OTHER MISCELLANEOUS INFORMATION:

Pricing on this document is subject to change at any time without prior notice.

Other than the per-unit prices listed above, the whole dollar prices are LOT. This means the quantity shipped is subject to 10% overrun or underrun, but you will be billed the listed price regardless of the exact qty shipped.

Shipping is not included in the pricing on this document. All orders are shipped F.O.B. Cleveland Ohio. Orders of 300 or more units are typically shipped on a pallet via a freight carrier. Orders under 300 units are typically shipped via UPS ground, triple boxed. A triple boxing fee of \$5 per master carton will be added to all non-palletized shipments. Triple boxing can be requested for palletized shipments as well, for the cost of \$5 per master carton.

Master carton qty's are based upon the final counts and specs of the order, and may vary. Most 7inches will ship in 150ct masters.

Shipping costs vary widely. Typically, you can save money shipping to a commercial location – particularly one with a trailer-height (not ground level) loading dock or forklift on premises when order qty is 300 or more units. Figure a minimum shipping cost of \$150 for order qtys of 100 7inches, \$300-500 for order qtys of 500-999 7inches, \$350-600 for orders of 1000 7inches, and an average of \$0.35 per unit for 2000+ units. Please note – these are extremely rough estimates, and the final actual shipping costs may be more or less, depending upon final order weight, box count, and physical location of the delivery address. A minimum \$10 per location drop ship fee for split shipments will be added to the final invoice. International addresses will incur a \$25 processing fee.

All orders require a 50% deposit, completed order form, and signed agreement to the GGR Terms of Service before work will begin.

Please note, we do not press records with uncleared samples or unlicensed records – please do not place an order if your record includes these.
